COMPANY PROFILE

2023

WELCOME TO

ALISA & B
ECO PEST CONTROL AND HYGIENE SOLUTIONS

OVERVIEW

COMPANY

ALISA & B Eco is a proudly South African, 100% black-owned pest control services company. We were established in 2019 with its sole focus on pest management, hygiene management, infection control, weed control and other complimentary services.

All our treatment methods comply with all international and local food safety audit standards, servicing clients in the following sectors:

- Residential
- Industrial
- Farms
- Warehouses
- Commercial
- Restuarants
- Hotels
- Hospitals
- Commercial

Our Pest control service is environmentally friendly, and it can be done even during business hours without having your employees/staff, family and visitors vacate the premises during service. Control products are placed where they are inaccessible to children, guests and staff.

OUR VISION

Our vision is to become the number one pest control services company in the whole of Gauteng with active presence in major cities in South Africa.

OUR MISSION

To make use of environmental and economic friendly practises while providing quality services as an ideal pest control services company in Gauteng and beyond.

OUR VALUES

Embedded in our service offerings are the following values;

- **Green principles** - Fully committed to the establishment, implementation and maintenance of effective Environmental Management Systems.
- **Carbon Footprint** - Using the safest possible pesticides
- **Sustainability** - Reduced risk to human health and the environment

HUMAN FRIENDLY
SOLUTIONS

ENVIRONMENTALLY
FRIENDLY

PET FRIENDLY
SERVICES

OUR APPROACH TO **ECO FRIENDLY SOLUTIONS**

The use of our pesticides is guided by the principles of cost efficiency, safety to humans, the bio-physical environment and effectiveness in controlling the pests.

We are committed to only use approved range of Eco and SANS/SABS approved products from reputable manufactures. The products are registered and approved with the Department of Agriculture under The Fertilizers, Farm Feeds, Agricultural Remedies and Stock Remedies Act, 1947 (Act 36 of 1947).

Apart from that, we comply with all relevant laws and regulations, including but not limited to:

- The Occupational Health and Safety Act 85 of 1993
- Hazardous Substance Act 15 of 1973
- The National Environmental Management Act 107 of 1998
- The Waste Act 59 of 2008
- Health Act/Conservation of Agricultural Resources Act 43 of 1983 (CARA)
- Food Safety Act
- The National Environmental Management of Biodiversity Act 10 of 2004 (NEMBA)
- The Compensation for Occupational Injuries and Diseases Act 130 of 1993
- Foodstuffs, Cosmetics and Disinfectants Act

SERVICES

PEST CONTROL

We control Ants, Bedbugs, Fleas, Lice, Cockroaches, Spiders, Beetles, Fly Moths, Flies, Fish Moths, Crickets and Locusts by means of pesticide in form of liquid, gel, granules or powder method

PATHOGEN CONTROL

We offer disinfection services against possible infection of Coronavirus (COVID-19) including a wide variety of bacteria and viruses. Our team of technicians employs the use of ULV fogging machines and deep cleaning (wiping of touch-points) with the aid of highly graded registered disinfectants, known for leaving a long-lasting residual killing effect - even after having been applied.

RODENTS AND RATS EXTERMINATION SERVICE

Elimination and control of Rodent and Rats infestation is achieved by supplying, installing and servicing of:

- Bait Station for outdoor use to control rodents;
- Rat cardboard box for indoor use to control rats (mouse);
- And by means of Wax Blocks, Pellets, Granules, Liquid and more.

SOIL-TREATMENT

We treat subterranean termites, harvester termites and wood destroying insects. We also provide you with a Certification guarantee of either five or ten years without termites invasion, of which the certificate is fully transferable, in the event that your property is sold. Namely pre-construction and post-construction termite soil treatments are the methods involved.

BEE AND WASP REMOVAL

ALISA & B is a registered Beekeeper under the Agricultural Pest Control Act No. 36 of 1983. Bees are removed in a professional and humane way from small, medium and high structures:

- Residential areas like houses, schools, water meters and playgrounds.
- Commercial areas like shops, hotels, restaurants, factories, offices and many more locations.

We also do wasp removal using environmental and sound methods through means of pesticides.

DEEP CLEANING

- Deep clean of urinals
- Deep clean of toilets
- Deep clean of showers
- Deep clean of basins

HYGIENE MANAGEMENT

Our hygiene management comprise of the following services:

- Supply and maintenance of hygiene consumables on a need basis;
- Deep cleaning of toilets, hand-basins, urinals and showers;
- And removal of sanitary waste and proper disposal thereof.

We also offer **rental of hygiene equipment** (like wall-mounted paper bins, hand wipes dispensers, toilet roll holders, ect.)

WEED CONTROL AND VEGETATION MANAGEMENT

Our weed control service is all about combating problematic plants, especially noxious weeds and controlling vegetation by means of chemical control with herbicides (weed killers) in areas like sidewalks, driveways, driveways and lawns. Vegetation management includes services such as tree pruning, bush removal, hazard tree identification and removal, and more.
